

Quality

The latest technology, the best materials and production control at each stage, as well, as our own research laboratories are the guarantee of quality.

Service

Professional and fast service is Drutex's calling card, which has been setting trends in pre- and post- sale customer services for many years now.

Security

The windows and terrace systems are equipped with reliable fittings and locks, which ensures security.

Smart Home

Intelligent control of doors, windows, roller shutters, venetian blinds, mosquito nets, gates, wickets, and lighting by means of a smartphone.

PVC WINDOWS

Our original PVC windows are the result of our in-house development department and research laboratory. All profiles are A-class, made exclusively from primary material. More than 30 veneer colours provide the perfect match for any architectural style. Millions of satisfied customers and independent experts all over the world have recognised the highest quality, excellent thermal and sound insulation parameters, high aesthetics of workmanship, durability and reliability of our PVC joinery. See for yourself, choose Drutex windows.

SYSTEM

IGLO EXPERT **NEW**

IGLO EXPERT is a modern PVC window system that combines a slim design with high performance. The six-chamber profile construction, specially designed chamber geometry, and triple sealing system provide excellent thermal insulation, enhanced comfort of use, and effective noise protection. The frame and sash combination, with a total height of only 111 mm, allows for a larger glazing area while bringing more natural light into the interior.

SYSTEM STRUCTURE

Behind its slim design are advanced structural solutions that provide excellent performance. IGLO EXPERT features a construction depth of 77 mm for the sash and 70 mm for the frame.

IGLO EXPERT

3-glazed units
Ug = 0,5 W/(m²K)

central gasket
PVC-P

1,5 mm „L” shaped
reinforcement

1,5 mm full reinforcement

Standard:

- perimeter, glazing and central gaskets in black or grey color
- 4 anti-burglary catches
- glazing with packages in the range of 24-54 mm
- galvanized steel frame or Swisspacer Ultimate warm plastic edge
- microventilation
- aluminum handle
- white, brown or anthracite profile
- sash lifter (blocks incorrect handle position - depending on the window height)
- gasket filling the lower fitting groove
- steel reinforcement of the frame and sash (2 mm for balcony door sashes)

ADDITIONAL OPTIONS IGLO EXPERT

-  option of using glazed units with a thickness from 24 mm to 54 mm
-  option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted
-  wide range of colours of decorative films
-  handles for windows with movable post
-  possibility of using 27 mm, 45 mm or 65 mm PVC applied glazing bars, and 8 mm, 18 mm, 26 mm or 45 mm aluminium glazing bars between the panes (p. 66)
-  wide range of additional profiles (connectors, extensions, sill profiles)
-  option of selecting a profile core in white, anthracite or brown
-  available with roller shutters, Venetian blinds and mosquito nets (p. 100)
-  option of using ventilators (p. 84)
-  turn lock
-  option of providing Smart Home automation (p. 92)

Our new, most technologically advanced window is distinguished by an excellent thermal insulation parameter of $U_w = 0,66 \text{ W/(m}^2\text{K)}$ * and a modern, angular profile shape.

The extremely good thermal insulation parameters are due, among other things, to the 7-chamber profile design and 3 EPDM gaskets, including the central gasket.

TECHNICAL DATA

SYSTEM STRUCTURE

7-chamber frame and sash profiles, with an installation depth of 82 mm. The system is equipped with a specially designed triple gasket: external and internal with EPDM and central with foamed EPDM.

IGLO EDGE

Standard:

- MACO MULTI-MATIC KS fittings with 4 anti-burglary strikers
- Silber-Look anti-corrosion coating for long-lasting protection and smooth operation
- Double-glazed unit with $U_g = 0.5 \text{ W/m}^2\text{K}$
- Swisspacer Ultimate warm-edge spacer
- V-perfect welding
- 4 anti-burglary strikers, depending on sash size and hardware system
- Micro-ventilation
- DUBLIN aluminum window handle
- Handle mispositioning block mechanism
- Perimeter, glazing bead, and central gaskets in black or grey
- Bottom hardware groove filling
- Window sill support profile
- Wide range of PVC foil colors
- 3 profile colors available: white, brown, or anthracite

ADDITIONAL OPTIONS IGLO EDGE

option of using glazed units with a thickness from 48 mm to 58 mm

option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted

option of using MACO Multi-Power concealed hinges in the fittings groove (invisible when the window is closed) as well as COMFORT and TBT fittings

wide range of colours of decorative films

handles for windows with movable post

Option to use internal aluminum glazing bars (muntins) with widths of 8 mm, 18 mm, 26 mm, or 45 mm

wide range of additional profiles (connectors, extensions, sill profiles)

hinge covers in custom colours: titanium, champagne, cream, black and gold

option of selecting a profile core in anthracite or brown

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

option of using ventilators (p. 84)

turn lock

option of providing Smart Home automation (p. 92)

Innovative, original 7-chamber A-class profile made exclusively from primary material. The world's first system using a central gasket made of foamed EPDM, which is a guarantee of the best energy-saving parameters. Iglo Energy and Iglo Energy Classic windows are distinguished by excellent water tightness parameters, air permeability and wind resistance.

SYSTEM STRUCTURE

7-chamber frame and sash profiles, with an installation depth of 82 mm. The system is equipped with a specially designed triple gasket: external and internal with EPDM and central with foamed EPDM.

IGLO ENERGY

IGLO ENERGY CLASSIC

Standard:

- MACO MULTI-MATIC KS fittings with 4 anti-burglary strikers and Silber-Look anti-corrosion coating for long-lasting protection and smooth operation (depending on window size)
- Sash lifter (handle mispositioning block) depending on window height
- Tilt-and-turn windows with micro-ventilation
- Hinge covers available in 4 colors: white, silver, light brown, brown
- Aluminum handle
- Triple glazing (double-chamber unit) filled with argon, with $U_g = 0.5 \text{ W/(m}^2\text{K)}$
- Swisspacer Ultimate warm-edge plastic spacer
- 2 EPDM gaskets (external and internal) + 1 central foam EPDM gasket, all in black

- Sealing gasket for the bottom hardware groove
- Fully enclosed steel reinforcement in the frame; U-shaped steel reinforcement in the sash
- White profile core
- 5-chamber PVC window sill support strip with gasket

Experience the fusion of cutting-edge thermal insulation performance and contemporary design with Iglo Energy Alucover. Crafted with precision, the aluminium overlay not only enhances the window's resistance against external elements but also optimizes its structural integrity, ensuring a lasting and reliable solution. Embrace boundless creativity with an extensive palette of colors, empowering you to fashion a unique and personalized style for every interior or building facade.

SYSTEM STRUCTURE

7-chamber frame and sash profiles, with an installation depth of 93 mm. The system is equipped with a specially designed triple gasket: external and internal with EPDM and central with foamed EPDM.

IGLO ENERGY ALUCOVER

Standard:

- MACO MULTI-MATIC KS fittings with 4 anti-burglary strikers and Silber-Look anti-corrosion coating for long-lasting protection and smooth operation
- Sash lifter (handle mispositioning block – depending on window height)
- Micro-ventilation in tilt-and-turn windows
- Hinge covers in 4 colors: white, silver, light brown, brown
- Dublin aluminum handle
- Triple glazing (double-chamber unit) filled with argon, $U_g = 0.5 \text{ W/(m}^2\text{K)}$
- Swisspacer Ultimate warm-edge spacer
- Rectangular glazing bead
- V-Perfect welding
- Matte RAL powder coating
- 2 EPDM gaskets (external and internal) + 1 central foam EPDM gasket, all in black
- Gasket filling the bottom hardware groove
- 2 mm fully enclosed steel reinforcement in the frame, U-shaped steel reinforcement in the sash
- 5-chamber PVC window sill support strip with gasket

ADDITIONAL OPTIONS IGLO ENERGY ALUCOVER

option of using glazed units with a thickness from 24 mm to 52 mm

option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted

option of using MACO Multi-Power concealed hinges in the fittings groove (invisible when the window is closed) as well as COMFORT and TBT fittings

wide range of colours of decorative films

option of using a rectangular glazing bead - only for 48 mm glazing (p. 90)

handles for windows with movable post

8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)

wide range of additional profiles (connectors, extensions, sill profiles)

hinge covers in custom colours: titanium, champagne, cream, black and gold

option of selecting a profile core in anthracite (Iglo Energy Classic only) or brown

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

turn lock

option of providing Smart Home automation (p. 92)

The common feature of both systems are 5 chambers, which provide very good thermal insulation performance. A wide package of additional options distinguishes our windows on the joinery market. Iglo 5 and Iglo 5 Classic are perfect for both warm and cold climates.

SYSTEM STRUCTURE

The profile has a 5-chamber construction with an installation depth of 70 mm. It features steel reinforcement of the sash and frame. The window is fitted with a double EPDM gasket: external and internal.

IGLO 5

IGLO 5 CLASSIC

Standard:

- MACO MULTI-MATIC KS fittings with 2 anti-theft strikers with Silber-Look anticorrosion coating for long-lasting protection and smooth operation of the fitting
- sash lifter (lifting mishandling device - depending on window height)
- microventilation in tilt and turn windows
- hinge covers in 4 colours: white, silver, light brown, brown
- aluminium handle
- 2-glazed (1-chamber) units infilled with argon gas with $U_g = 1.1 \text{ W/(m}^2\text{K)}$
- galvanised steel glass-pane spacer optional Swisspacer Ultimate glass-pane spacer

- 2 EPDM gaskets in black (external and internal)
- gasket filling the lower fittings groove
- 1.5 mm steel reinforcement for frame and sash (2 mm for balcony door sash), „C“-shaped
- profile core in white
- 5-chamber PVC under-sill trim with gasket

ADDITIONAL OPTIONS IGLO 5 / IGLO 5 CLASSIC

- 

option of using glazed units with a thickness from 24 mm to 40 mm
- 

option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted
- 

option of using the Swisspacer Ultimate glass-pane spacer (p. 90)
- 

option of using MACO Multi-Power concealed hinges in the fittings groove (not visible when the window is closed), COMFORT, TBT, flat handles for roller blinds (only for PP, Iglo 5 Classic with DM 25 bolt)
- 

wide range of colours of decorative films
- 

option of selecting gaskets in grey
- 

option of using a rectangular glazing bead - only for 24 mm glazing (p. 91)
- 

handles for floating mullion windows
- 

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)
- 

3-glazed (2-chamber) units, infilled with argon gas, with $U_g = 0.6 \text{ W/(m}^2\text{K)}$
- 

hinge covers in custom colours: titanium, champagne, cream, black and gold
- 

option of selecting a profile core in brown
- 

available with roller shutters, Venetian blinds and mosquito nets (p. 100)
- 

option of making windows in V-Perfect technology (so called thin welding)
- 

RC2 Resistance class can be achieved, 4 strikers, MAX fittings
- 

option of using ventilators (p. 84)
- 

turn lock
- 

option of providing Smart Home automation (p. 92)
- 

option of using a 41 mm and 65 mm high renovation frame and a 35 mm adaptation frame
- 

wide range of additional profiles (connectors, extensions, sill profiles)
- 

MACO tilt mechanism
- 

option of using full (closed) steel reinforcement in the frame

Even more light and enjoyment. Iglo Light's design is expressed in its rounded shape and the slim and narrow lines of its profile. Compared to traditional systems, it is characterised by a 32% narrower floating mullion with a symmetrically placed aluminium handle and an 8 mm narrower sash profile.

TECHNICAL DATA

SYSTEM STRUCTURE

The 5-chamber A-class profile is made exclusively of primary material. Its installation depth is 70 mm. The innovative, original arrangement of the steel reinforcement (35 mm x 24 mm x 2 mm) in the chamber ensures adequate strength and stability of the system.

IGLO LIGHT

Standard:

- MACO MULTI-MATIC KS fittings with 2 anti-theft strikers with Silber-Look anti-corrosion coating for long-lasting protection and smooth operation of the fitting
- sash lifter (lifting mishandling device - depending on window height)
- microventilation in tilt and turn windows
- hinge covers in 4 colours: white, silver, light brown, brown
- aluminium handle
- 2-glazed (1-chamber) units infilled with argon gas with Ug = 1.1 W/(m²K)
- galvanised steel glass-pane spacer optional
Swisspacer Ultimate glass-pane spacer
- 2 EPDM gaskets in black (external and internal)
- gasket filling the lower fittings groove
- 1.5 mm steel reinforcement for frame and sash (2 mm for balcony door sash), „c”-shaped
- profile core in white
- 5-chamber PVC under-sill trim with gasket
- V-Perfect welding

ADDITIONAL OPTIONS IGLO LIGHT

option of using glazed units with a thickness from 24 mm to 40 mm

option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted

option of using the Swisspacer Ultimate glass-pane spacer, available in 3 colour variants: black, grey, brown (p. 90)

option of using MACO Multi-Power concealed hinges in the fittings groove (invisible when the window is closed) as well as COMFORT and TBT fittings

wide range of colours of decorative films

option of selecting gaskets in grey

option of using a rectangular glazing bead

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)

hinge covers in custom colours: titanium, champagne, cream, black and gold

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

using 3-glazed (2-chamber) units, infilled with argon gas, with $U_g = 0.6 \text{ W/(m}^2\text{K)}$

option of using full (closed) steel reinforcement in the frame

option of using ventilators (p. 84)

turn lock

option of providing Smart Home automation (p. 92)

option to use a frame with a 41 mm or 47 mm fin, and a 35 mm adaptive frame

wide range of additional profiles (connectors, extensions, sill profiles)

A modern system of turn and outward-tilting windows that provides very good thermal insulation parameters and high comfort of use. The system is the result of the work of our in-house development department and research laboratory, which ensures the highest quality of the offered products.

OUTWARD-OPENING WINDOWS AND BALCONY DOORS

SYSTEM STRUCTURE

The profile has a 5-chamber construction with an installation depth of 70 mm. It features steel reinforcement of the sash and frame. The system is fitted with a double EPDM gasket: external and internal.

IGLO EXT

Standard:

- concealed MACO Multi-Power fittings in the window (invisible hinges when the window is closed), door fittings on balcony windows
- for balcony doors, double roller DM20 bolt for full (airtight) locking or locking with trickle ventilation
- aluminium handle with double-sided insert
- 2-glazed (1-chamber) units infilled with argon gas with $U_g = 1.1 \text{ W/(m}^2\text{K)}$
- galvanised steel glass-pane spacer optional Swisspacer Ultimate glass-pane spacer
- 2 EPDM gaskets in black (external and internal)
- gasket filling the lower fittings groove
- 1.5 mm full (closed), steel, „c“-shaped frame and sash reinforcement (2 mm for balcony door sashes)
- profile core in white
- 5-chamber PVC under-sill trim with gasket

ADDITIONAL OPTIONS IGLO EXT

option of using glazed units with a thickness from 24 mm to 40 mm

option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted

option of using the Swisspacer Ultimate glass-pane spacer available in 3 colour variants: black, grey, brown (p. 90)

wide range of colours of decorative films

option of selecting gaskets in grey

option of using a rectangular glazing bead

option of using concealed hinges on balcony doors (invisible when the door is closed) - MACO Multi-Power fittings are designed for balcony door sashes weighing up to 150 kg

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)

3-glazed (2-chamber) units, infilled with argon gas, with $U_g = 0.6 \text{ W/(m}^2\text{K)}$

option of making windows in V-Perfect technology (so called thin welding)

SYSTEM STRUCTURE

7-chamber original a -class sash profile made exclusively of primary material, with a frame depth of 206 mm. The comfort of use and the tightness of the construction are ensured by specially designed guide system and velour and EPDM gasket. The system is fitted as standard with a low PVC threshold with reinforcement and an aluminium overlay.

IGLO-HS ALUCOVER

Standard:

- Swisspacer Ultimate edge
- rectangular glazing bead
- aluminum handle
- V-Perfect weld
- RAL matt varnishb
- G-U lift and slide fittings with 3 locking bolts
- micro-ventilation striker
- aluminium handle on the inside, recessed grip on the outside
- 3-glazed (2-chamber) units infilled with argon gas, with Ug = 0.5 W/(m²K)
- internal velour gasket, external EPDM and brush, gasket in black
- frame reinforcement made of high quality aluminium sections with thermal breaks, sash reinforcement:
 - top and vertical - full (closed) steel, 2 mm thick
 - bottom - steel, channel-shaped, 3 mm thick
- profile core in white
- non-flush sash profile
- system carts with a load capacity of 300 kg

ADDITIONAL OPTIONS IGLO-HS ALUCOVER

option of using glazed units from 36 mm to 52 mm thick

option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted

option of using the Swisspacer Ultimate glass-pane spacer, available in 3 colour variants: black, grey, brown (p. 90)

wide range of colours of decorative films

option of selecting glass gaskets in grey

option of using a rectangular glazing bead - only for 36 mm glazing (p. 91)

option of providing Smart Home automation (p. 92)

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)

option of making sashes in V-Perfect technology (so called thin welding)

option of using a ventilator with a drip cap RENSON THM 90 (str. 76)

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

wide range of additional profiles (connectors, extensions)

system carts with a load capacity of 400 kg

double-sided handle with an insert

Our original solution provides optimum light to both large and small rooms, while maintaining very good thermal insulation parameters that will significantly reduce your heating costs.

SYSTEM STRUCTURE

7-chamber frame and sash profiles made exclusively of primary material in Class A, with an installation depth of 82 mm. The system includes a triple gasket, with a central gasket made of foamed EPDM.

IGLO ENERGY PSK

IGLO ENERGY CLASSIC PSK

Standard:

- MACO SKB-S System Standard fittings for window sashes weighing up to 160 kg
- 3-glazed (2-chamber) units infilled with argon gas, with Ug = 0.5 W/(m²K)
- profile core in white
- galvanised steel glass-pane spacer optional Swisspacer Ultimate glass-pane spacer
- 2 EPDM gaskets in black (external and internal) + 1 central gasket made of foamed EPDM, gaskets available in black
- gasket filling the lower fittings groove
- 2 mm full (closed) steel frame reinforcement, „c“-shaped steel sash reinforcement

- aluminium handle
- rail cover available in 4 colours: silver, white, light brown and brown
- 5-chamber PVC under-sill trim with a gasket

ADDITIONAL OPTIONS IGLO ENERGY PSK / IGLO ENERGY CLASSIC PSK

- 

option of using glazed units from 24 mm to 48 mm thick
- 

option of using glass panes with improved sound insulation, laminated (safety and anti-burglary), ornamental, solar control, mirror and sandblasted
- 

option of using the Swisspacer Ultimate glass-pane spacer available in 3 colour variants (p. 90)
- 

wide range of colours of decorative films
- 

option of selecting gaskets in grey
- 

option of using a rectangular glazing bead - only for 48 mm glazing (p. 91)
- 

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)
- 

option of selecting a profile core in brown, for Iglo Energy Classic also in anthracite
- 

option of using the MACO SKB-Z automatic fitting which supports closing of the tilt
- 

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

This is the perfect solution for those looking for window joinery that will provide the right level of light in the room. The tilt and slide system is characterised by ease of use and very good thermal and sound insulation parameters.

SYSTEM STRUCTURE

5-chamber frame and sash profiles made exclusively of primary material in Class A, with an installation width of 70 mm with a double gasket: external, internal with EPDM.

IGLO 5 PSK

IGLO 5 CLASSIC PSK

Standard:

- MACO SKB-S System Standard fittings for window sashes weighing up to 160 kg
- 2-glazed (1-chamber) units infilled with argon gas with Ug = 1.1 W/(m²K)
- Rail cover available in 4 colours: silver, white, light brown and brown
- profile core in white
- galvanised steel glass-pane spacer optional Swisspacer Ultimate glass-pane spacer
- frame profile height 75 mm
- 2 EPDM gaskets in black (external and internal)

- gasket filling the lower fittings groove
- 1.5 mm full (closed) steel frame reinforcement, 2 mm „c”-shaped steel sash reinforcement
- aluminium handle, available with key option
- 5-chamber PVC under-sill trim with gasket

ADDITIONAL OPTIONS IGLO 5 PSK / IGLO 5 CLASSIC PSK

option of using glazed units from 24 mm to 48 mm thick

soundthe option of using glass panes with increased sound insulation, laminated glass, (safety and anti-burglary), ornamental glass, solar control glass, mirrored glass and sandblasted glass

option of using the Swisspacer Ultimate glass-pane spacer available in 3 colour variants (p. 90)

wide range of colours of decorative films

option of selecting gaskets in grey

option of using a rectangular glazing bead

option of using the MACO SKB-Z automatic fitting which supports closing of the tilt.

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)

3-glazed (2-chamber) units infilled with argon gas, with $U_g = 0.6 \text{ W/(m}^2\text{K)}$

option of making windows in V-Perfect technology (so called thin welding)- only for Iglo 5 Classic PSK

Handle on both sides - only for the Iglo 5 Classic system

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

option of selecting a profile core in brown

Specially developed original system to allow even more daylight into rooms. Compared to other PSK systems, it is distinguished by its visual lightness of the form.

SYSTEM STRUCTURE

5-chamber frame and sash profiles made exclusively of primary material in Class A, with an installation depth of 70 mm. IGLO LIGHT PSK is equipped with a double gasket: external, internal with EPDM

IGLO LIGHT PSK

Standard:

- MACO MULTI-MATIC KS fittings with 4 anti-theft strikers with Silber-Look anti-corrosion coating for long-lasting protection and smooth operation of the fitting
- 2-glazed (1-chamber) units infilled with argon gas with $U_g = 1.1 \text{ W/(m}^2\text{K)}$
- profile core in white
- galvanised steel glass-pane spacer optional Swisspacer Ultimate glass-pane spacer
- 1.5 mm full (closed) steel frame reinforcement, 2 mm „c“-shaped steel sash reinforcement
- aluminium handle
- rail cover available in 4 colours: silver, white, light brown and brown
- V-Perfect welding - (so-called thin welding)
- 5-chamber PVC under-sill trim with gasket
- frame profile height: 75 mm

The system is designed for producing terrace doors and sliding windows. Thanks to the application of the latest technological solutions, it ensures high comfort of use and durability for many years. It is ideal for rooms where the use of traditional window and door solutions is not possible. IGLO SLIDE is dedicated for locations where high thermal insulation parameters are not required.

TECHNICAL DATA

SYSTEM STRUCTURE

3-chamber profile of frame and sash, with an installation depth of 82 mm, is fitted with a brush sealing.

IGLO SLIDE

Standard:

- Siegenia System Fittings with Height-adjustable Carts
- Aluminium Handle
- 24 mm Glazing Package, 2-glazed (1-chamber) Filled with Argon, with $U_g = 1,1 \text{ W/(m}^2\text{K)}$
- Galvanised Steel Spacer
- V-perfect eld
- Brush Sealing
- Black Gaskets
- 2 mm Steel Reinforcement for Frame and Sash
- 2-sided Aluminium Handle + Insert for Terrace Doors

ADDITIONAL OPTIONS IGLO SLIDE

option of using glazed units from 24 mm to 36 mm thick

sound the option of using glass panes with increased sound insulation, laminated glass, (safety and anti-burglary), ornamental glass, solar control glass, mirrored glass and sandblasted glass

option of using the Swisspacer Ultimate glass-pane spacer available in 3 colour variants (p. 90)

wide range of colours of decorative films

option of selecting gaskets in grey

option of using a rectangular glazing bead

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)

option of using ventilators in the sash (p. 84)

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

Our new, most technologically advanced window is distinguished by an excellent thermal insulation parameter of $U_w = 0,66 \text{ W/(m}^2\text{K)}^*$ and a modern, angular profile shape. The extremely good thermal insulation parameters are due, among other things, to the 7-chamber profile design and 3 EPDM gaskets, including the central gasket.

IGLO EDGE SLIDE

Standard:

- aluminum handle
- 48 mm glazing unit, $U_g = 0.5 \text{ W/(m}^2\text{K)}$
- Swisspacer Ultimate warm-edge spacer
- V-Perfect welding
- EPDM sealing
- black gaskets
- 2 mm steel reinforcement in frame and sash

ADDITIONAL OPTIONS IGLO EDGE SLIDE

option of using glazed units from 48 mm to 54 mm thick

sound the option of using glass panes with increased sound insulation, laminated glass, (safety and anti-burglary), ornamental glass, solar control glass, mirrored glass and sandblasted glass

wide range of colours of decorative films

option of using 27 mm, 45 mm or 65 mm wide PVC glued on muntin bars and 8 mm, 18 mm, 26 mm or 45 mm wide aluminium internal muntin bars (p. 74)

available with roller shutters, Venetian blinds and mosquito nets (p. 100)

EXTRAS

A wide range of accessories enables you to fully personalise your windows and terrace systems. With us, you will create a window joinery that meets your expectations.

MUNTIN BARS

Create an elegant and yet unique look for your windows. The wide configuration options combined with the available colours make it possible to create many interesting arrangements.

Muntin bars can be used on all our window and terrace systems.

GLUED-ON MUNTINS

PVC glued on muntin bars

Glued on muntin bar in widths of 27 mm, 45 mm or 65 mm. Available in our colour palette.

INSIDE GLASS MUNTINS

Internal aluminium muntin bars

Internal muntin bars in widths of 8 mm, 18 mm, 26 mm or 45 mm. Available colours: white, gold, silver, golden oak, dark oak, mahogany, nut, macore, winchester, RAL 8022 (ask your dealer for the other colours).

*For the option of making a particular design from muntin bars, ask your dealer or contact Drutex's Technology Department.

BALCONY THRESHOLDS

The balcony thresholds we offer are characterised by the highest ergonomics in use, durable construction and a high degree of thermal insulation. They are ideal for any climate zone.

WOODEN THRESHOLD

Available for:

- IGLO 5
- IGLO 5 CLASSIC
- IGLO LIGHT
- IGLO EXT

FRAME THRESHOLD - STANDARD FOR EVERY SYSTEM

- IGLO ENERGY
- IGLO ENERGY CLASSIC
- IGLO 5
- IGLO 5 CLASSIC

- IGLO LIGHT

20 MM ALUMINIUM THRESHOLD

Available for:

- IGLO 5
- IGLO 5 CLASSIC
- IGLO LIGHT
- IGLO EXT

OPTIONAL THRESHOLDS FOR IGLO ENERGY AND IGLO ENERGY CLASSIC

COMBI 20 MM

COMBI PLAN 0,0 MM
with optional linear drainage system available (additional option)

NON-STANDARD DESIGNS

We also offer non-standard window designs in systems:

- IGLO ENERGY
- IGLO ENERGY CLASSIC
- IGLO 5
- IGLO 5 CLASSIC
- IGLO LIGHT

For confirmation of a non-standard design, contact your dealer or Drutex's Technology Department.

In non-standard designs, there is no option for V-Perfect welding (so-called thin welding), due to the lack of a 90° angle in all corners.

CREATE YOUR OWN UNIQUE STYLE

RENOVATION AND ADAPTATION FRAMES

The use of a renovation frame allows windows to be installed without removing the old window frames. This solution is successfully used in historic buildings or where exceptional care is required for the building façade. Available in the colours of our veneer colour palette.

The option of making a renovation and adaptation frame in V-Perfect technology (so-called thin welding):

- Iglo Energy Classic
- Iglo 5 Classic
- Iglo Light

RENSON THM 90 ventilator with a drip cap

Available colours:

- RAL: 7016, 8019, 9005, 9006, 9016,
- Ask your dealer or our sales department about custom colours.

Radaks, Regel - air and Maco Ventyl ventilators are not available for the Iglo Premier and Iglo EXT windows.

*Measured at 10 Pa - data obtained from the ventilator manufacturer.

RENSON THM 90

*Measured at 10 Pa - data obtained from the ventilator manufacturer.

GLASS PANES

We offer many types of glass panes that are characterised by the highest quality of workmanship. Choose panes for your windows that will meet your expectations and give your interior unique character.

We have been manufacturing multiple glazed panes since 1994. We have a state-of-the-art glass tempering plant and our own research laboratories, which ensure the highest quality.

The glazed units we manufacture can be fitted with special capillaries to equalise the pressure inside the glass with atmospheric pressure. Thanks to this solution, the glazing packages will perform perfectly in your premises.

Option to sandblast the glass in any way you wish (in 3 shades of grey)* or to use ready-made designs.

INFILLING MATERIAL

- **ARGON** - all glazed units are infilled with argon gas as standard, which guarantees very good thermal insulation. This has resulted in glazed units with Ug value of between 1.1 and 0.5 W/(m²K).

3-pane (2-chamber) 48 mm units with glass-pane spacer made of galvanised steel.

COLOURS

The rich colour range of window, balcony doors, HS and PSK terrace systems allows almost unlimited options for colour matching to customers' personal needs and preferences. The excellent quality of the foils used during production guarantees that the highest quality and durability of the colour will be maintained for many years.

The current veneer colors are available on our website.

HANDLES

The handles used in our products are made of aluminium and are distinguished not only by their elegant design the colour options, but also by their ergonomic shape. Handles can be supplied with options with a key or push-button to prevent unintentional opening (an option particularly recommended for children's rooms).

GLASS-PANE SPACERS

The glass-pane spacers contribute to the thermal insulation of the glazed units. Drutex already offers glass-pane spacer made of galvanised steels as a standard, which are characterised by very good thermal insulation, much better than aluminium spacers. The Swisspacer Ultimate plastic spacer is available as an option.

Glass-pane spacer made of galvanised steel
is provided as standard with every glazed unit.

Swisspacer Ultimate

Optional Swisspacer Ultimate glass-pane spacer
available in black, brown, grey.

SMART HOME WITH EVERYTHING UNDER CONTROL

Intelligent control systems for window automation via remote control, tablet or smartphone are becoming increasingly popular with customers, allowing the system to also be managed remotely while they are away.

There is the option of opening and closing windows individually, in groups as well as time-based programming and connection to other intelligent systems in the house.

This is an investment in comfort and functionality at the highest level.

G-U AUTOMATICS, SIEGENIA

A modern system designed for HS system solutions.

Functions:

- opening and closing
- operation via remote control and/or smartphone app

TaHoma® switch

Windows, doors, roller shutters, Venetian blinds, gates and wickets that, thanks to the intelligent control unit from Somfy - TaHoma® switch, can open or close by themselves at selected times of the day, can tilt or slide in integrated groups or individually, offering us full control and surveillance of our home, even when we are not inside. The TaHoma® switch also allows us to manage the lighting in the house and garden.

BleBox product line

These are miniature devices that allow you to open and close doors, windows, roller shutters, awnings, Venetian blinds, gates, manage lighting or the alarm system via your smartphone and tablet - even from anywhere in the world.

*3 - For a window measuring 1,230x1,480 mm, with steel reinforcement and the argon gas-filled glass package $U_g = 0.6 \text{ W/(m}^2\text{K)}$, with the Swisspacer plastic spacer bar

*4 - For a window measuring 1,230x1,480 mm, with steel reinforcement and the argon gas-filled glass package $U_g = 0.6 \text{ W/(m}^2\text{K)}$, with the Swisspacer plastic spacer bar.

*5 - For a window measuring 1,230x1,480 mm, with steel reinforcement and the argon gas-filled glass package $U_g = 0.6 \text{ W/(m}^2\text{K)}$, with the Swisspacer plastic spacer bar.

*6 - For a window size of 1230x1480 mm - calculation method = 0.89 W/(m²K) with steel reinforcement and glazed units Ug = 0.6 W/(m²K) infilled with argon gas, with a Swisspacer plastic spacer.

*7 - For a window measuring 1,230x1,480 mm – calculation method = 0.76 W/(m²K) with the argon gas-filled glass package Ug = 0.5 W/(m²K), with the Swisspacer plastic spacer bar.

*8 - For a window measuring 1,230x1,480 mm, $U_w = 0.66 \text{ W/(m}^2\text{K)}$ with steel reinforcement and the argon gas-filled glass package $U_g = 0.4 \text{ W/(m}^2\text{K)}$, with the Swisspacer Ultimate plastic spacer bar.

Drutex exterior doors mean very good thermal insulation parameters, various arrangement and functional possibilities as well as modern design and security. Highest quality components and equipment, used in the process of production, helped in creating product worthy of XXI century.

MOSQUITO NETS

FACADES WINTER GARDENS

Drutex is currently one of the leading producers of windows and doors in Europe. Not only, is it one of the most innovative and reliable polish brands, but also a calling card of polish entrepreneurship success' in the whole world.

The company, 100% Polish-owned, is led by Kamila Gierszewska, who continues the vision of its founder, Leszek Gierszewski.

Thanks to the guaranteed high quality, rich offer, technological advancement, own laboratories, high efficiency of operation, really short lead and delivery time, year by year we grow our addressee net. Each product is custom-made and produced for a specific customer.

We offer PVC, aluminium, and wooden windows and doors, roller shutters, venetian blinds, facades, and winter gardens.

Window-door joinery, branded with the DRUTEX logo, reaches six continents.

We have been appreciated by millions of satisfied customers and independent experts, granting the company with many prestigious awards. The most important ones include: Forbes Diamond, EU Standard, European Medal, Superbrands Title, Plus X Award 2017.
